

What Is TechCred?

TechCred is a Ohio training reimbursement program aimed to support Ohio employers, to build a stronger workforce with the skills needed in a technology-infused economy.

Why use TechCred?

Did you know, one of the top reasons employees are leaving organizations is lack of growth opportunities with their current employer?

Multiple organizations throughout Ohio have taken advantage of reimbursement eligible training. What they've realized is they are now able to maximize the training options for employees and teams who want to be upskilled in new technologies.

Topics covered by TechCred
